

A PLACE FOR EVERYTHING AND EVERYTHING IN ITS PLACE

Organisation is Everything.

Kurapotheke Bad Ischl - Where it all began

First sliding divider 1973

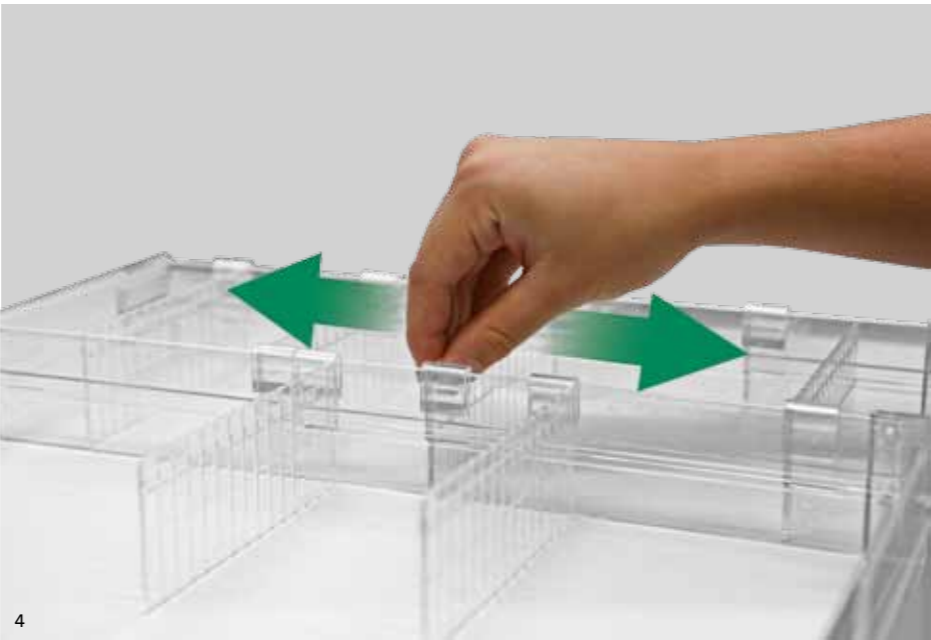

Heimo Hrovat jun. and Heimo Hrovat sen. 2003

ORGANISATIONAL SOLUTIONS FOR HEALTHCARE PROBLEMS

Finding Practical Solutions for Everyday Problems.

DEVELOPMENT AND PRODUCTION UNDER ONE ROOF BY ONE COMPANY

Devised and produced by H+H personnel.

The H+H divider system has proved its worth in practice for more than 30 years in all medical areas from the pharmacy to the hospital. The dissatisfaction with the existing dividing and organisation systems of the two inventors Horst and Heimo Hrovat, both Austrian pharmacists, led to the development of the sliding divider system in 1973 which has since

been patented. Throughout the years, the divider system has grown into a large and flexible range of products. H+H SYSTEM is distributed by our partners in many European countries as well as in the H+H subsidiary in the USA. It is now used by a large range of people from the healthcare sector to shop fitters of all types of businesses.

From the development to the processing the production of H+H organisation systems is under one roof. This is why its suitability in practise and the high quality of each product is guaranteed. On the following pages you will find a general overview explaining how H+H can help you and your business.

	Divider systems for drawers, trays etc.	6 – 7
	Divider systems for shelves	8
	Labelling and stock control	9
	Modular trays system	10
	Trays, boxes etc.	11
	Drawers	12 – 13
	AluCool® Drawers and inserts for medical refrigerators	14 – 15

THE ORDERLY WORLD

The well organised person controls his time ...

■ Badly organised areas are expensive in time and space

... saves more than 30% space ...

At today's increasing ratio of wage and rent of the overall result, effective use of storage and working is essential. With the consistent use of H+H System components, up to 30% storage space can be saved.

■ H+H SYSTEM saves up to 30% of space

■ No mess, no mistakes

■ A place for everything and everything in its place

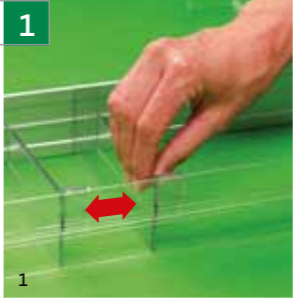

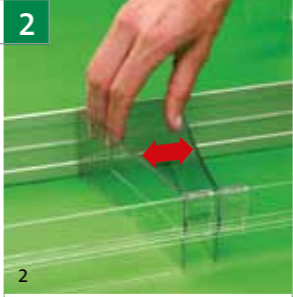

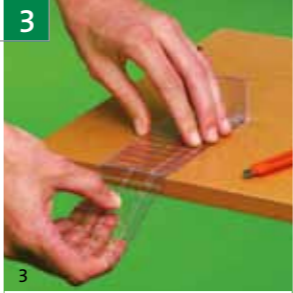

Saving time is also one of the advantages of H+H SYSTEM. Items are quickly restocked, easily found, and the stock control is simple. H+H SYSTEM saves time and space.

Safety first - avoid mistakes in selection

Flexible Divider System

... and helps saving lives.

In sensitive areas errors can be fatal. The clear organisation and the well-defined marking with the labelling system guarantees the highest safety standard in the selection of correct products.

In wooden drawers
e.g. in the pharmacy

In standard drawers
e.g. in the laboratory

In metal drawers
e.g. in the hospital

In modular trays
e.g. in the nursing home and
in the hospital

In any type of trolley
e.g. in the hospital and in the medical practice

PERFECT ORGANISATION IS UNOBTUSIVE

Organisers of your choice can be fitted to existing shelves and drawers.

Installation with slotted rail holder or as complete insert for drawers

Slotted rail holder
with adhesive tape,
with rail

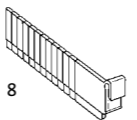

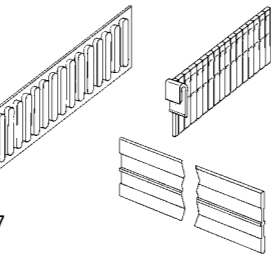

Divided
lengthways

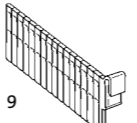

Divided
crossways

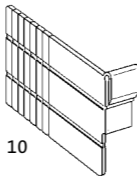

The H+H SYSTEM is adapted to your specifications and not the other way round. Every height, every width, every depth, every kind of divider system. For H+H SYSTEM everything is possible. Easily removable, e.g. for the cleaning. After the reorganisation every item has its own place once more.

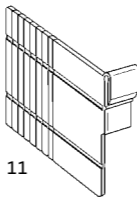

35 mm

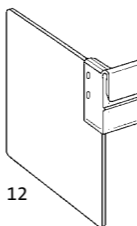

55 mm

100 mm

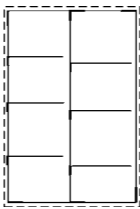

125 mm

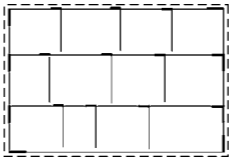

150 mm
and higher

e.g. with two
rows lengthways

3

e.g. with three
rows crossways

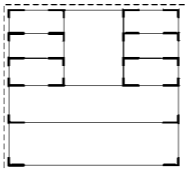

4

e.g. with one
row lengthways

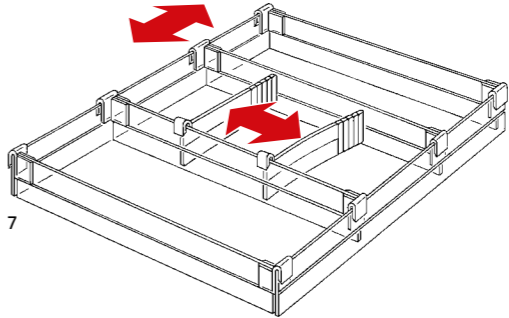

5

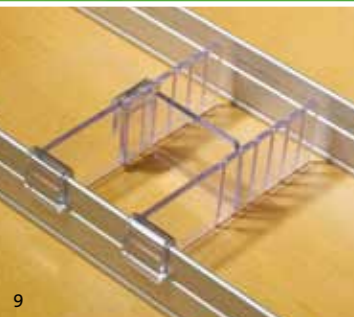

e.g. special design,
you choose the
configuration

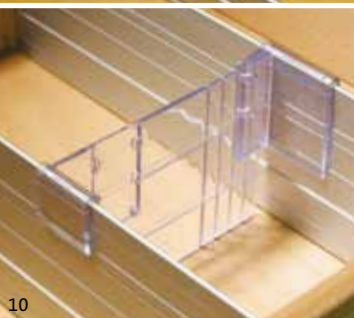

6

Insert removable
for easy cleaning

Clip one divider
onto another,
for a smaller
compartment

Use a clip on the end
of the divider,
for maximum stability
where necessary

MANY OPTIONS IN HEIGHT AND
LENGTH AVAILABLE

EVERY HEIGHT, EVERY CONFIGURATION IS POSSIBLE

ONE GLANCE FOR CUSTOMERS AND STAFF

Finding instead of searching - even on the shelf.

Create your own ideal version of your chosen organiser system.
Storage or display - our system fits both requirements
The dividers are unobtrusive and do not detract from your displays.

Perfect separation - no mistakes

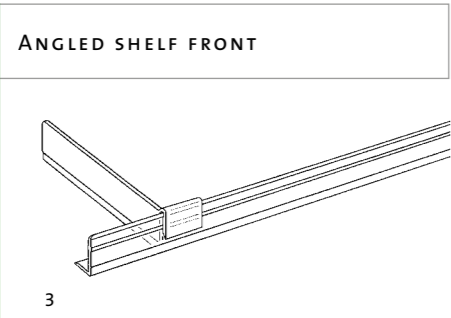

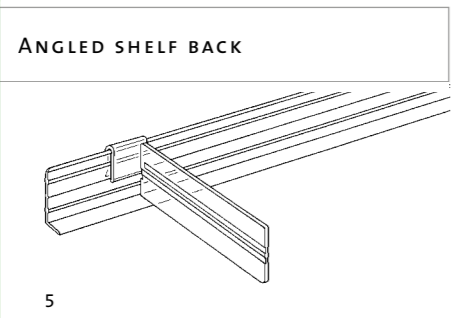

A place for everything and everything in its place

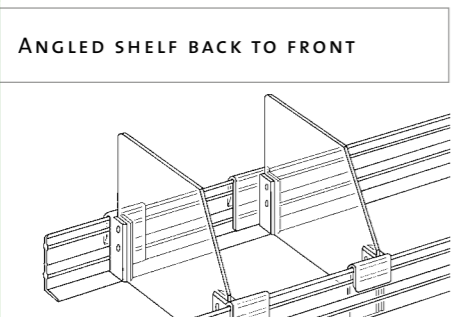

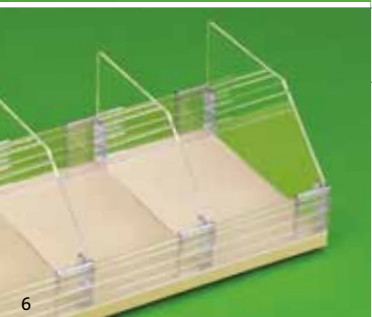

EVERYTHING UNDER CONTROL

	ON THE SHELF	IN THE DRAWER	
Integrated card holder	 4	 8	Integrated card holder
Card holder on the clip of the divider	 5	 9	Card holder clips onto the divider
Card holder in vinyl	 6	 10	Card holder angled for easier reading
Pricing	 7	 11	Card holder 40 x 60 mm for baskets and trays
		 12	Card holder customised to your specifications e.g. 70 x 20 mm

INNOVATIVE STORAGE FOR YOUR STOCK

H+H FlexModul® the ISO-Format

H+H SYSTEM's ISO-format FlexModul is the product of choice where highest demands are placed on flexibility, efficiency and quality. This module is the result of intensive development work aimed at achieving maximum variability in storage. By combining trays and baskets into one, H+H SYSTEM has not only achieved this objective but has also created the best possible variability.

Klinotec the DIN-Format

H+H SYSTEM's Klinotec brand stands for modular flexibility. This high-quality module delivers absolute tidy storage in cabinets sized 600 x 600 mm (external dimensions) and simplifies supply material logistics in a very decisive way.

THE COLD INNER LIFE

The H+H AluCool®-Drawer in the refrigerator.

Aluminium is light, aesthetic and durable. Because of its good conducting qualities the temperature in the refrigerator will be uniform throughout.

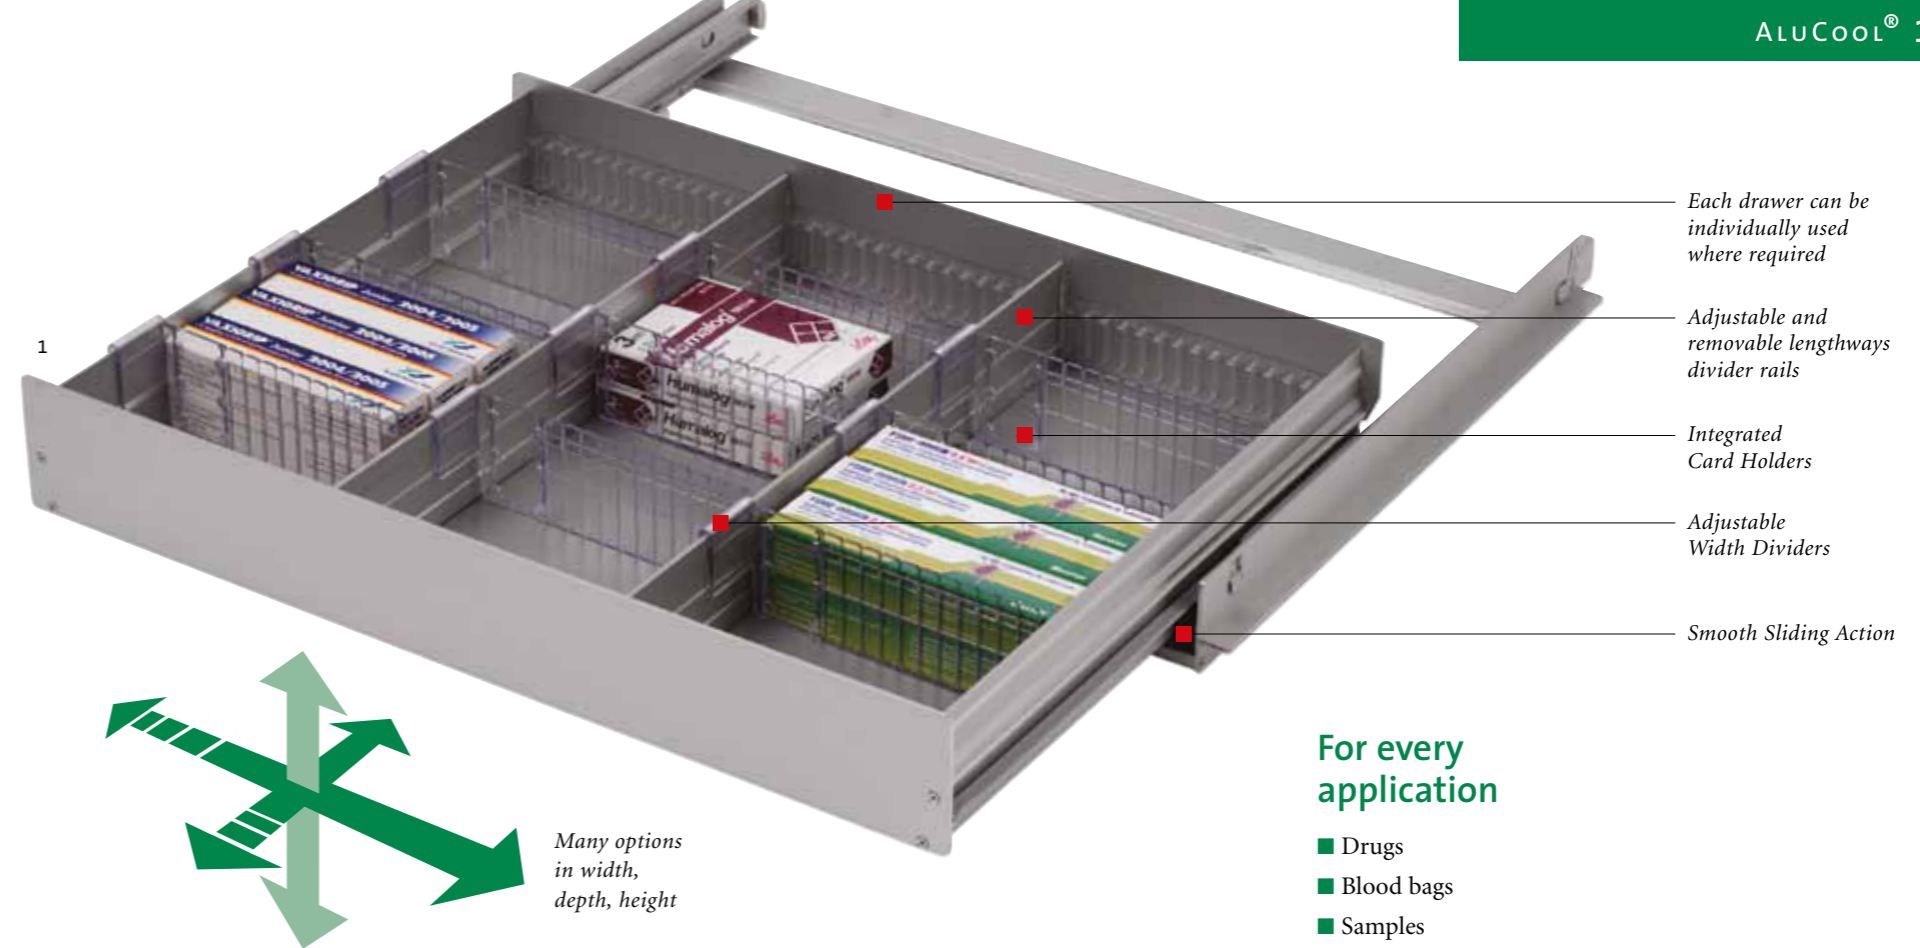

Advantages: include visual clarity, plain surface for easy cleaning and hygiene.

TEMPERATURE CONDUCTION AT 20°C:

Aluminium	Metal	Plastics
W/m x K 204	W/m x K 81	W/m x K 0,17

For more than 30 years H+H SYSTEM has been the specialist for aluminium-drawers with flexible divider systems. Their practical and technical experience offers additional advantages with the AluCool® drawer which is available for any type of refrigerator:

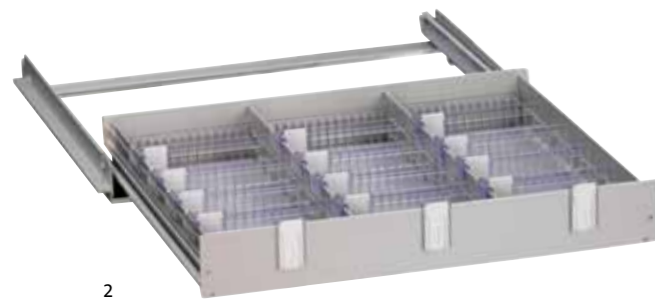

- Cost-efficient
- No wasted space

For every application

- Drugs
- Blood bags
- Samples
- Reagents

Single-Drawer

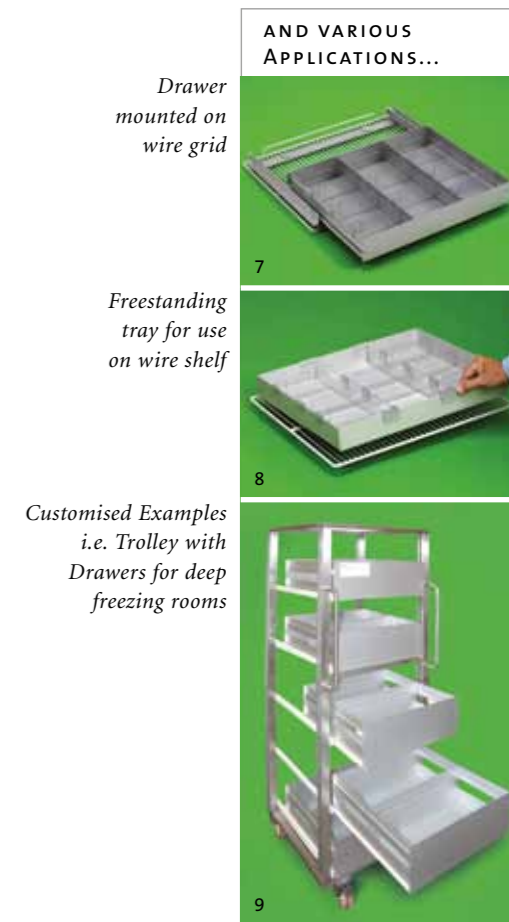

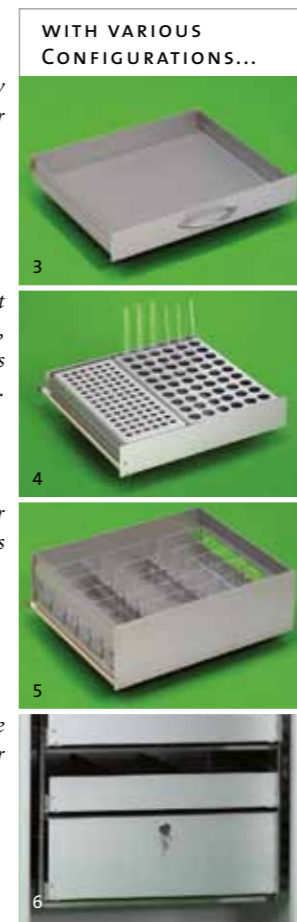

Drawer Rack

For integrated refrigerators. And for the undercounter refrigerators.

For stand-alone refrigerators.

Bloodbank Refrigerators

AVAILABLE FOR REFRIGERATORS FROM ANY MANUFACTURER.

H+H SYSTEM, your partner, has many individual applications for shopfitters, pharmacies, retail shops, laboratories and hospitals.
